## **DETAILED ACTION**

### ***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance:
  - a. Claims 1 – 13 are allowable over the Prior Art of Record because it fails to teach or suggest a method of aligning at least two pieces of machinery so that centerlines of rotating shafts of each piece are in-line, comprising the steps of adjusting a position of the second unit horizontally and vertically to align a center point of the target with a center of the circle produced by the light source; reversing the position of the laser holder assembly on the first unit and the target on the second unit; rotating the second shaft on the second unit so that the laser holder assembly on the second unit projects the light source in a circle around the centerline of the second unit to a target on the first unit; and adjusting an angular position of the second unit to align the center point of the target with the center of the circle produced by the light source emitting from the second shaft. in combination with the remaining limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
